TXAPA Welcomes Matt White as North Texas Regional Director

Buda, TX, May 7, 2026

The Texas Asphalt Pavement Association (TXAPA) is pleased to announce the addition of Matt White as North Texas Regional Director, bringing more than 15 years of experience in the road construction, aggregates, and heavy equipment industries to the association.

White most recently served as General Manager – Road & Mineral Products for Kirby-Smith Machinery, where he supported operations and strategic growth initiatives across a 13-branch territory spanning Texas, Oklahoma, and Kansas. Throughout his career, he has developed extensive experience working alongside contractors, producers, and industry partners across the asphalt pavement and road construction sectors.

“I’m excited to join TXAPA and continue supporting an industry that plays such a critical role in building and maintaining Texas infrastructure,” said White. “I look forward to working with our members and helping strengthen relationships across North Texas.”

“Matt brings valuable industry knowledge, leadership experience, and strong relationships throughout the North Texas market,” said Harold Mullen, TXAPA CEO. “We’re excited to welcome him to the TXAPA team and look forward to the impact he will make serving our members.”

TXAPA COO Corey Schwarz added, “Matt understands this industry from multiple perspectives and has a strong track record of collaboration and customer service. He will be a tremendous resource for our members and industry partners throughout the region.”

White has been actively involved with industry organizations including TXAPA, the National Asphalt Pavement Association (NAPA), and the Associated General Contractors of America (AGC).

About the Texas Asphalt Pavement Association

The Texas Asphalt Pavement Association serves the needs of asphalt producers, contractors, liquid asphalt suppliers, and interested firms in support of the production and placement of quality asphalt pavement. The Association is committed to providing educational services and technical information to keep its membership and the industry on the competitive edge.
